

Application No. 10/701,267  
Amendment dated September 20, 2006  
Reply to Office Action of March 20, 2006

Docket No.: L8400-01005P

**AMENDMENTS TO THE DRAWINGS**

Attached hereto are four (4) sheets of corrected drawings that comply with the provisions of 37 C.F.R. § 1.84. Please substitute these corrected drawings for the corresponding four (4) sheets of drawings on file in the above-identified application.

**REMARKS**

The foregoing amendments are made to place all of the allowable claims in condition for allowance by correcting the informalities noted by the Examiner. The drawings have been amended to correct the inconsistencies noted, and the specification has been amended to conform to the drawings.

The following comments are made to explain the amendments in more detail:

- a. The previous set of replacement drawings corrected the following inconsistencies: "32" was changed to "31" for the U-shaped bracket in Fig. 9; "53", "25", "24" and "123" were added to the drawings; and "111" was changed to "110" in Fig. 30. These are maintained in the new set.
- b. The new drawing changes are "13" changed to "15" on Fig. 8; "37" is deleted on the unidentified element on Fig. 9; "37" is changed to "38" on the bolt in Fig. 14; and "15" and "19" are deleted from Figs. 26 and 27, and "20" is deleted from Fig. 27.
- c. The specification has been amended to conform to the drawings by adding "14" and "22" on page 12, and the claims have been amended to correct the several typographical errors noted.

Accordingly, it is believed that this application is in condition for allowance, and reconsideration is therefore respectfully requested.

Dated: September 20, 2006

Respectfully submitted,
